Smarty.receiver quick start guide

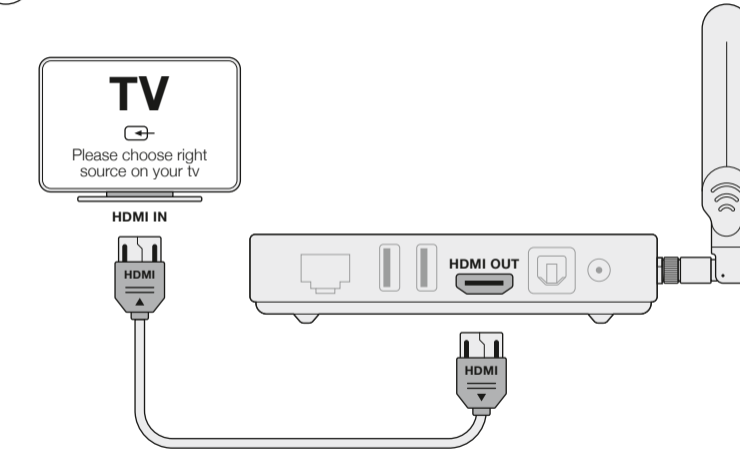

- ① Screw the Wi-Fi antenna into the correct socket.

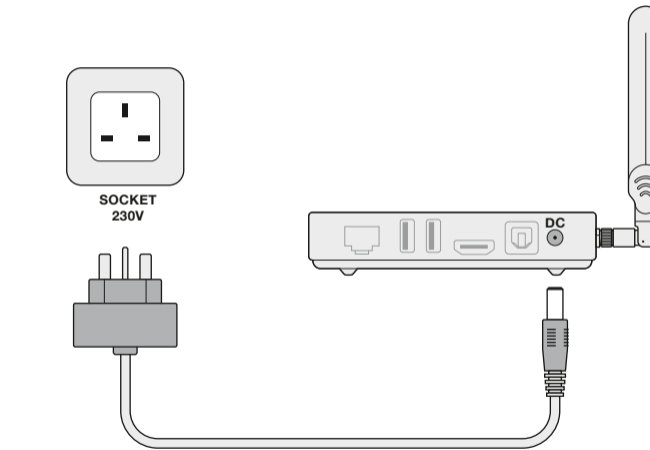

- ② Connect the video source to the HDMI-in socket of Smarty.receiver.

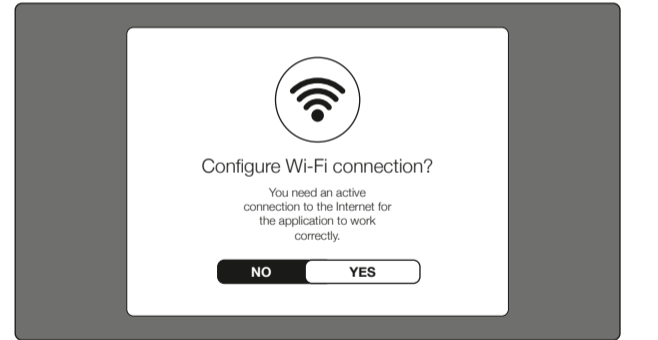

- ③ Connect Smarty.receiver to your TV using the HDMI-out socket.

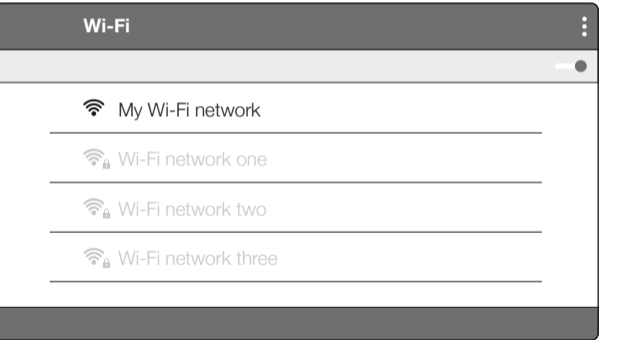

- ④ Connect the Smarty.receiver to the power supply.

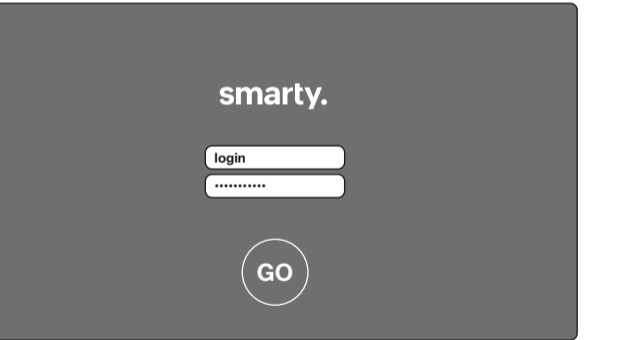

5 After connecting the power supply, the device will start automatically and ask to configure Wi-Fi connection. Choose "Yes".

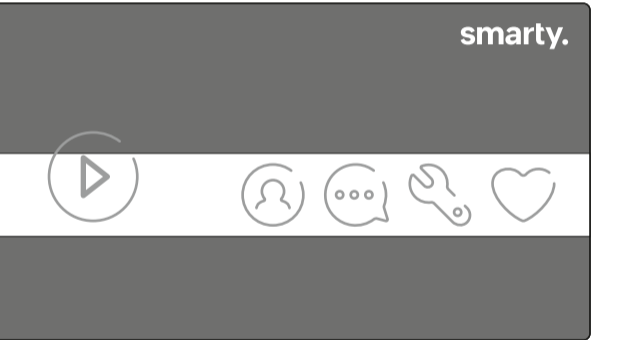

6 From the list of available networks, select the network you wish to connect.

7 After successfully connecting to the network, the device will display a log-in screen. Log-in using provided credentials.

8 After successfully logging in, you will see the Smarty.life menu.
